

Shepherd hood Ministries January Report

Dear Esteemed friends

Greetings in the Holy Name of our Lord , it is always great when we begin a year in God's way and will and see him take us through it with the ability to face challenges . We hope to run our full year program as a ministry but we need prayers and support. We shall be soon sharing what we really need to attain our goal... here is a short report of work already done.

Empowering the Orphan and needy girl Child

Is Sanitary towel of any importance to an Orphan Child? How does it help empower educating them? This has been answered many times, and for the sake of the child shepherd hood has always been ready to answer. Shame and fear are two force of destroying the girls' education, when the child is worried of her MP every month she gets frustrated, ashamed and fearful and thus can go home at any time if she cannot afford a simple sanitary towel. This is a basic need for our children. This January Shepherd hood Ministries is supplying sanitary towels to 15 schools and this has given the girls a smile. Just because someone cares, the program is to be continued. We thank you daily for prayers and concern and support.

We have been able in the go- entreat go-empower girl child program the following schools ;-

- Itendeu Secondary School
- Syomikuku Secondary School
- Kyethani Secondary School
- Kalisasi Secondary School
- Kaela Secondary school

- Yanyonge Secondary School
- Mathuma Secondary School
- Katalwa secondary School
- And Isee Secondary School
- Mitamisiyi Orphanage

We have more five schools to Visit as soon as possible.

Orphanage Help

How does it feel not to have a home, or parents or even someone to take care of you?

What kind of child who we expect to grow from a street and homeless individual? Shepherd hood had not initially thought of a child rescue program and technically we have not started any. But one of our youth Ministry out of necessity is now keeping 14 young children to give them a home, food and education. God just supplied some food stuff through shepherd hood and this was received with thanks. May God supply this Needs. We are pray if it pleases the Lord each child to have his or her goat...they will get milk for every morning and later school fee after selling the increase of the goats in three years to come ..(14 x2 x3+14)

We are thanks for a missionary in Kenya who has been giving his car to be used by shepherd hood ministries in traveling and transporting needed things God Bless you Brother Matthew Elmore. May God bless Brother Rich and Brother Joel and Brother Sammy and all faithful servants towards reaching out to the next generation through shepherd hood.

Goats report and picture is coming soon and more school missions.

Love

Simon
